## THE PUBLIC SERVICE

## The Old City Council Wins Up its Business.

The Chief of Police Authorized to Rent Quarters for City Prisoners.

A Number of Routine Matters Passed Upon—At the Courthouse—General Court Notes. New Suits.

Authorization was granted the Chief of Police at a meeting of the City Council yesterday to hire quarters and employ guards for city prisoners, who cannot be accommodated in the City Jail. A hearing was given in the case of the painting of the First-street and Broadway bridges. An ordinance was adopted prohibiting connections with any sewer not fully completed and accepted.

As the Courthouse considerable business of a general nature was transacted.

## AT THE CITY HALL.

## Affairs Wound Up. FINAL BUSINESS SESSION OF THE CITY COUNCIL.

All the members of the City Council were present at an adjourned meeting held yesterday afternoon for the purpose of completing the business in hand. The presence of Superintendent Smith of the Los Angeles Consolidated Railway Company in the Council chamber led to the expectation that the ordinance granting that company an extensive franchise, which ordinance is in the hands of the Mayor, might be returned to the Council without His Honor's signature. This, however, did not occur.

In order to clear up certain matters before him, the Mayor returned without his approval a large number of demands for the payment of money not authorized by requisition. They were referred to the Finance Committee.

The requisitions were allowed as presented with the approval of the Supply Committee.

The same committee reported without recommendation four requisitions of the Street Superintendent for the employment of four extra teams for the month of October, amounting to \$771.

Councilman Nickell moved to allow the requisitions. He said possibly the requisitions were a little irregular, yet the money had been paid and he believed they ought to have their pay.

Councilman Munson said that, according to precedent, demands for work of this sort, ordered by a city officer, should be paid even without a requisition. He believed the services for which the requisitions had been presented had actually been performed, and the money should be allowed.

All the members voted for the allowance of the requisitions, except President Teed, who, in explaining his vote, said: "It is an outrageous and extravagant expenditure of the people's money, which we should not be called upon to pay."

Demands for the amounts named in the requisitions were thereupon approved.

A recommendation of the Finance Committee that the City Attorney be directed to present a contract and bond with Stephen C. Foster for the translation of the old Spanish records into English for \$500, was presented.

Councilman Nickell moved to refer to the incoming Council.

This motion failed to carry, and the recommendation was adopted.

Bonds of city officers-elect were, on recommendation of the Finance Committee, approved.

## EXPERT SERVICES IN SPILMAN CASE.

Demands for \$300 each, but approved by the Finance Committee for \$150 each, from Fred Eaton, H. Hawgood and G. Purcell were presented. It was explained that at the time the Spilman suit was brought the City Attorney quietly consulted members of the City Council and with their approval employed the three engineers named to examine the ground preparatory to giving expert testimony in court when the case came to trial. The understanding with them was that they were to receive \$300 each in full compensation for their services. The case, however, had been settled by stipulation without being brought to trial, and the Finance Committee had approved the demands to the amount of \$150 as a sort of compromise.

There appeared to have been some misunderstanding as to the amounts the three gentlemen would accept as compensation for their services, and the matter went back to the Finance Committee.

Councilman Rhodes moved that the Electric Railway Company be directed to replace the crosswalk torn out at Pico and Vernon streets. Adopted.

A communication from the Fire Commission, calling attention to the fact that the specifications for the improving of the East Los Angeles engine-house contain no provision for plumbing, was referred to the Building Superintendent to insert such a provision.

## ROOM FOR CITY PRISONERS.

The appeal from the Police Commission, as published in yesterday's Times, recommending that the Chief of Police be authorized to hire quarters and employ guards for such city prisoners as there is no room for in the City Jail, and that the Chief be further authorized to employ guards for them, was presented.

This brought forth a motion from Councilman Nickell to refer the matter to the incoming City Council, which motion was seconded by Councilman Pesnell.

Councilman Munson said he hoped the motion would not carry. A situation such as he predicted some weeks ago, now presented itself.

Councilman Nickell said he did not want to "saddle" the matter onto the next Council, for that body would have to "trust" for funds. He, however, favored the building of a workhouse. Temporary quarters, he said, were out of the question.

The deplorable condition of the jail was spoken of by Councilman Rhodes, who said he had been in it a number of times. At this point in his remarks one of the opposition members endeavored to break the force of his argument by asking Mr. Rhodes if he was serving sentence when in jail.

The motion of Councilman Nickell to refer to the incoming Council was lost by a vote of all the members except Innes, Nickell and Strom.

The recommendation of the Police Commission to authorize the Chief to hire quarters and employ guards was thereupon adopted by a vote of all the members except Mr. Innes.

Hardly had the vote been announced when Councilman Pesnell, who, as far as known, has not heretofore publicly advocated anything of the kind, moved that the Superintendent of Buildings, in conjunction with the Police Commission, be instructed to present plans and specifications for the building of a workhouse. The motion prevailed without particular opposition.

## A CHICKEN ORDINANCE.

An ordinance regulating the keeping of chickens in the territory bounded by Bixel, Sixth, Alvarado, Tenth, Union avenues and Seventh street was introduced at the request of Councilman Rhodes, but was referred to the incoming Council.

The City Engineer presented, with the recommendation that they be approved, specifications for the piping of the Arroyo delos Reyes between Fourth street and the Normal School grounds, and also be

referred to the incoming Council. Referred to the incoming Council.

The City Engineer also reported that the petition of S. C. Hubbell, asking that the grade of Pennsylvania avenue, between Michigan avenue and Bridge street, be changed, represented more than a majority of the frontage affected. He thereupon presented an ordinance of intention to make such change. The ordinance was adopted.

## PAINTING BRIDGES.

Mr. Peek was heard in reference to the painting of the First-street and Downey-avenue bridges. He stated that a great deal of wrapping had to be done before putting the paint on, and he thought the time consumed in the work was not unreasonable. The two foremen in charge of the work were also heard. It was explained that a good deal of the work was awkward to get at, and a great deal of time was necessarily consumed in the arranging of the staging.

The matter was referred to the Bridge Committee to prepare a report.

Councilman Pesnell moved that the attention of the Health Officer and Chief of Police be called to the fact that garbage is being dumped on Ninth street east of Alameda street. Adopted.

President Teed stated that he had investigated the matter of the street-sewer not completed and accepted, and had found that where property-owners were given permission by the Street Superintendent to make connections, there was nothing to prevent them from running sewerage into the sewers thus connected with the ordinance declared.

It is a misdemeanor to connect with any sewer not fully completed and accepted. The ordinance was adopted.

## System of Committees.

DIFFERENT ARRANGEMENT IN THE BOARD OF SCHOOLS.

There has been considerable discussion of the arrangement of committees in the incoming Board of Education from that which has been in operation with the outgoing board. The names of the committees of the present board are as follows: Finance, Buildings, Furniture and Supplies, Teachers and Salaries, Rules and Classification, Sanitation and Printing, Visiting, Insurance, Ways and Means.

In the first place there is no committee to which High School matters would naturally go. The needs of the High School are in many respects unlike those of the primary and grammar grades, and the question of what portion of the funds at the disposal of the school board should be devoted to the institution is an important one. Under the present arrangement there is no committee to which High School matters would specifically apply, and consequently the responsibility for the management of the High School rests upon the whole board, and it is difficult to fix the blame, if the institution is not managed wisely.

Of course such a committee would not be in absolute control of the High School, but the board would be unlikely to assume the responsibility of acting against the recommendations of such a committee, unless there were something evidently wrong in such recommendations. If there were such a committee it is believed the public would have a much better opportunity to know whom to praise or blame, as the case may be, for the management of affairs connected with the big building on the hill.

With one Committee on Finance, and another on Ways and Means, as at present, there are numerous important questions likely to come up which would be scarcely different property be referred to either of these committees. This being the case the president of the board is given an opportunity to refer to the committee a matter to whichever of the two committees he believes will report on it in nearest accordance with his own ideas. Practically the same condition of affairs exists between the Committee on Furniture and Supplies, and the Committee on Janitors and Printing. Of course where the president announces a reference to a committee to which a majority of the board does not assent, the matter under consideration is referred to the majority may override the president's announcement and vote to refer it to the committee desired, but in actual practice it is found this is not very likely to occur.

The Board of Education of Duluth, Minn., as is this city, has as members. The committees are as follows, there being three members of each committee: Executive, Buildings and Grounds, Finance, Accounts, Schools and Teachers, Property and Supplies, Fuel and Janitors, High School and Courses of Study, Text Books, and Printing. Of course where an arrangement as the above is believed to be very much to be preferred.

This time the Committee on Teachers and Salaries has the privilege of recommending both on matters in reference to teachers, and also on matters in reference to stipulations without being brought to trial, and the Finance Committee had approved the demands to the amount of \$150 as a sort of compromise.

There appeared to have been some misunderstanding as to the amounts the three gentlemen would accept as compensation for their services, and the matter went back to the Finance Committee.

Councilman Rhodes moved that the Electric Railway Company be directed to replace the crosswalk torn out at Pico and Vernon streets. Adopted.

A communication from the Fire Commission, calling attention to the fact that the specifications for the improving of the East Los Angeles engine-house contain no provision for plumbing, was referred to the Building Superintendent to insert such a provision.

## CITY HALL NOTES.

T. Herberger and others have petitioned that a crosswalk be placed at Edgeware road and Illinois street.

City Tax Collector-elect Gish has announced the appointment of deputies as follows: Cashier, E. E. Johnson; license collector, G. L. Keany; deputy, B. F. Elliot.

## AT THE COURTHOUSE.

The Courts.

GUY ROBERTS PLEADS GUILTY TO FORGERY.

Guy Roberts, a well-known young resident of the East Side, appeared before Judge Smith in Department One yesterday, and by leave of the court and District Attorney, withdrew his plea of not guilty and substituted that of guilty to one of the charges of forgery pending against him. He was thereupon sentenced to imprisonment in the State Prison at San Quentin for the term of five years, and the other cases against him were dismissed.

## ADJUDGED INSANE.

Three unfortunate men, all of whom, strange to say, proved to be natives of New York, were adjudged insane and committed to the State Asylum at Highlands yesterday, in accordance with the recommendation of Commissioners Wernick and Lindley.

Charles B. Howe, a youth about 21 years of age, was examined before Judge York. From the evidence it appeared that young Howe was at one time an acrobat, but sustained an injury to his head on account of an accidental fall. Since that time, however, he drinks intoxicants and becomes very violent and has to be restrained. He was confined in the Kanawake Asylum for a few months, but was taken from that institution by his mother, who resides in this city now. Recently he took a dislike to his home, and was taken from his knife, but was disarmed, fortunately, before doing her an injury.

The other patients were examined before Judge Van Dyke in Department Four. The first case taken up was that of Andrew Comber, a laborer about 30 years of age, who was sent to the county hospital for treatment on Monday last. He imagines that he is doing penances for some horrible sin he has committed, and persists in refusing to eat. As any attempt to prevent him from starving to death is violently resisted, it was deemed advisable to restrain him.

The third case was that of Chris Keller, a bookkeeper, over 60 years of age, who

has been an inmate of the County Hospital since April last. He claims that he is haunted by evil spirits, and that he has wheels in his head, which he keeps from revolving by a big dose of morphine.

## DAMAGE SUIT ON TRIAL.

The case of H. A. Brown & Co. vs. J. J. Hubbard et al., an action for damages, came up for trial before Judge McKinley and a jury in Department 57 yesterday, but, after occupying their attention all day, was not concluded and went over until this morning.

The plaintiffs, who own a tract of thirty acres of land near Fullerton, in Orange county, purchased a carload of nursery stock orange trees from defendants on September 11, 1890. Some six months later defendants delivered 2000 trees to plaintiffs, of which 1500 were warranted to be Washington navels, and the remainder Mediterranean sweeties. These trees were planted, and in the spring of 1894 duly bore fruit, but not of the kind and quality guaranteed by defendants. The plaintiffs, therefore, seek to recover \$1000 for the loss of their orange crop last season.

C. Cohn, the young Hebrew recently convicted of having committed burglary on August 5 last, by breaking into Mrs. Perera's pawnshop, appeared before Judge Smith yesterday afternoon, and was sentenced to imprisonment in the State Prison at San Quentin for two years.

## FOR THE DEFENDANT.

The trial of the damage suit instituted by Mrs. Rachael Corallan Sansome against the Los Angeles Consolidated Electric Railway Company, was concluded in Department Five this morning, and the jury, whom the matter was submitted at 11:30 o'clock, returning at 3:10 a verdict for the defendant.

## Court Notes.

Suit for divorce has been commenced by Barbara G. Smith against Joshua C. Smith upon the grounds of desertion and failure to provide.

In Department Three yesterday the trial of the case of J. M. Riley vs. J. H. Braley et al., which has been pending for some two weeks past, was concluded, and the testimony was over for argument until January 17 next.

The case of Gregory Perkins, Jr., vs. the National Bank of Pomona, an action to recover \$2500, the value of a stock of bonds alleged to have been sent transferred to defendant by the insolvent firm of Mullen & Egan for the purpose of defrauding their creditors, came up for hearing before Judge Shaw yesterday. It was not concluded, however, and will be taken up again today.

For Kennedy, the old soldier charged with having assaulted Annie Dodd with a deadly weapon, to-wit, a pair of shears, on November 18 last, was permitted to plead guilty to the charge, and was thereupon sentenced by Judge Smith to imprisonment in the County Jail for thirty days.

## New Suits.

Among the documents filed with the County Clerk yesterday were the preliminary papers in the following new cases:

D. F. Bonagura vs. James Wallace et al., action on street assessment alleged to be due for work done on Burlington avenue.

Mrs. Karen A. Danielson vs. George P. Vetter, an action to recover damages alleged to have been suffered by reason of false representations as to the value of City Bank stock.

In solvency of L. Meredith, a Pomona farmer; voluntary petition of debtor: Liabilities, \$587; assets, including property, exempt from execution, \$580.

## Charter Revision.

The City Council yesterday took no action in the matter of calling an election for the purpose of submitting to the voters of the city the proposed revision of the city charter. This will probably be fatal to the measure, for it is very doubtful if the new City Council can duly consider the question and call an election in time so it may, if approved by the people, be submitted to the Legislature before that body adjourns.

## Successful Missionary Workers.

Miss Clara Downey and Miss Lucy Sullivan, who arrived in this city from India a few days ago, were sent out some years ago by the Woman's Foreign Missionary Society of the Methodist Episcopal Church.

Miss Downey, formerly of New York, after eight years of successful work in the Christian schools, came to Southern California, seeking restoration of health. Glances of life in India among all classes have been portrayed in the several addresses by Miss Lucy Sullivan and her sister, Miss Carrie Sullivan, to the instruction and delight of all present. The reception and "parlor talk" at the home of Mrs. G. R. Crow, Thursday afternoon afforded many an opportunity of meeting these honored workers, and hearing still more of their successful labor in heathen lands. The Misses Sullivan left for their Ohio home on Friday.

### **STEADY PROGRESS.**

Growth of the Business of the Western Union.

Frank Jaynes, the Pacific Coast manager of the Western Union Telegraph Company, was in the city yesterday, and expressed himself as well pleased with the new quarters of the local branch of the company.

"While it would be difficult," remarked Mr. Jaynes, "to give detailed statistics showing the increase in the business of Los Angeles during the past year or two, it is interesting to note that there has been steady progress."

"While the panic last year spread disaster throughout the country, our business in Los Angeles showed no deviation, but on the contrary, an increase, and that has been true for each year since the time of the boom. With the better times which we hope lie ahead it may be confidently expected that the Western Union business here will increase in greater ratio than elsewhere, where every branch of trade suffered more or less."

**TWO SHOE STORES INTO ONE**  
A Seattle Shoe Stock Sent Here to be Sold Out.

Fifteen Thousand Dollars Worth of Shoes Moved Here from Seattle to be Sloughed for the Benefit of the Public.

The proprietors of the Mammoth Shoe House, Messrs. Olmloch Bros., have discontinued their Seattle branch and have shipped all remaining Seattle stock to their store here to be sold out at half price.

With these goods are now being opened, and will be sold out at about 50 cents on the dollar. There will be no end to the slaughter in prices until these goods are all gone.

Besides a great variety of broken lines of ladies' and children's shoes, this Seattle stock contains a great number of men's shoes of all grades, from \$2.50 upward. We invite the gentlemen of this city to inspect them before purchasing elsewhere. We will offer extra inducements on these Seattle shoes. They must be sold out at half price for the regard to value. Bear in mind that the "Mammoth" is the largest exclusive shoe house in Los Angeles.

Remember that we will sell these Seattle shoes at less than manufacturers' cost. We shall call this our "Seattle" sale, and don't wish you to miss it. Mammoth Shoe House, Nos. 315 and 317 South Spring street, between Third and Fourth streets.

**A STUDY OF FACES.**  
No matter where you go, will show you how many, many people ought to be taking Carlsbad Sprudell Salt.

There's the thin, peaked face that tells of perverted nutrition. There's the fat, puffy face of fatulent obesity. There's the otherwise pretty face that's marred by skin disorders and eruptions; the yellow, haggard face of the dyspeptic; the dull, drawn faces of sufferers from stomach and liver and kidney troubles.

All these people need the Carlsbad Sprudell Salt. It goes to the root of the whole matter. It purifies the blood, dissolves obstructions, clears the system and cures permanently in a natural way every derangement of the stomach, bowels, liver and kidneys.

Beware of the many imitations sold as "improved," or "artificial" Carlsbad. These generally consist only of ordinary Sedlitz Powder and Glauber Salt, sold by unscrupulous dealers upon the reputation of the Genuine Carlsbad Salt.

The only genuine imported Carlsbad Salt has the signature of "EISNER & MENDELSON CO., Sole Agents, New York" on every bottle.

### **ECHO MOUNTAIN HOUSE,** Mount Lowe Railway.

300 FEET ABOVE THE LEVEL OF THE SEA. AT THE SUIT OF THE GREAT CABLE INCLINE.

The Echo Mountain House is the finest and best equipped in the world, and is second to none of the world-famous hotels of Southern California. In location it has no equal, being immediately overlooking the San Gabriel Valley, with mountains, foothills, ever-verdant valleys, timbered villages, Old Mission, sea beach, shipping, islands and ocean in full view. The climate is delightful, both winter and summer. It is never hot and never cold. On the verandas there are always cool breezes in summer, and in winter it is warmer than in the valley below. The sunsets and sunrises witnessed from its porches and verandas equal in splendor the most gorgeous displays pictured by European visitors. An additional attraction is the Lowe Observatory, provided over by the eminent astronomer, Dr. Lewis Swift. Other attractions within easy reach of Echo Mountain House are numerous and will take days and even weeks to explore them, and no visitor should spend less than one day and night on these mountains—where more enjoyment can be had in the same time than in any other spot on the globe—to witness the gorgeous sunset and sunrise; the cities of Los Angeles and Pasadena below, with their thousands of electric lights glimmering like a host of stars; the magnificent collection of the great World's Fair searchlight, and look through one of the finest telescopes in the world; also the fine zoological collection of wild animals that inhabit the Sierra Madre Mountains. Rates no higher than like accommodations in the valley. Weekly and monthly rates on application. See time-table. Well-equipped. Livery stable at Anderson Junction for the accommodation of guests of the hotel. Buses leave for Echo Mountain House will receive low-rate commutation tickets over the railway to visit the valley.
